# INSTRUCTIONS FOR USE

## Pro-Ject Power Box S2

Dear music lover,

thank you for purchasing a Pro-Ject Audio Systems Power Box S2.

In order to achieve maximum performance and reliability you should study these instructions for use carefully.

*Warning of a hazard for the user, the unit or possible misuse*

*Important notice*

## Safety instructions

AC outlet voltages vary from country to country. Before connecting to the mains, make sure that the voltage in your area meets the voltage requirements printed on the device.

Never handle the device while your hands are wet or damp. Avoid letting liquids enter the device. Never place any item containing liquid, such as a flower vase on or near the device. Never spill any liquid on the device. Never place any naked flame sources, such as lighted candles on or near the device. The product shall not be used in damp or wet locations, next to a bathtub, sink, swimming pool or any other similar conditions.

## Using the product

Power Box S2 is designed to power various Pro-Ject products including turntables.

*Make all connections whilst the **Power Box S2** is **switched off** or **disconnected from the power supply**.*

## Mains power connection

Connect the low voltage plug from the power supply to the **Power In 20V DC** socket of the unit before connecting the power supply to the mains.

## Stand-By

The button on the front panel of the unit alternately turns the power on or returns it to standby mode. The blue LED above the stand-by push button shows that the unit is switched on.

## Outputs

The unit offers 3 power outputs:

**20V** is designed to power Pro-Ject amplifier such as MaiA, Stereo Box S2 etc.

**15V** output is made to power Pro-Ject turntables.

**5V** is suitable for Pre Box S2 Digital, Head Box S2 Digital, DAC Box S2 +, Head Box S2, Tuner Box S2, Bluetooth Box S2, Box S2 and possible future products.
