- **NEW** heavy red 10 mm glass platter
- **NEW** precision acrylic sub platter
- Precision belt drive
- Semi-symmetrical phono cable included
- Gold plated RCA connectors
- Handmade in Europe

Speed: 33, 45 (electronic speed change)

Drive principle: belt drive

Platter: 10mm glass (felt mat incl.)

Platter bearing: stainless steel axle in brass bushing

Wow & flutter: 33: +/-0,16%; 45: +/-0,14%

Speed drift: 33: +/-0,40%; 45: +/-0,30%

Signal to noise: 68dB

Tonearm: 8,6" straight acrylic

Effective arm length/mass: 218,5 mm / 6,0 g

Overhang: 18,5mm

Included accessories: 15V DC / 0,8A power supply,
7" single adapter

Power consumption: 4W / 0W standby

Dimensions: 495 x 135 x 405 mm (WxHxD)

Weight: 6 kg net

Let There Be Rock

The legendary rock band AC/DC is known for their electrifying sound and high energy performances. The Australian band became iconic for their rock anthems, including "Back in Black", "Highway to Hell" and "Thunderstruck". The logo is one of the most recognizable symbols in rock music. The iconic font is reminiscent of a lightning bolt, which gave us the idea of this very special turntable design.

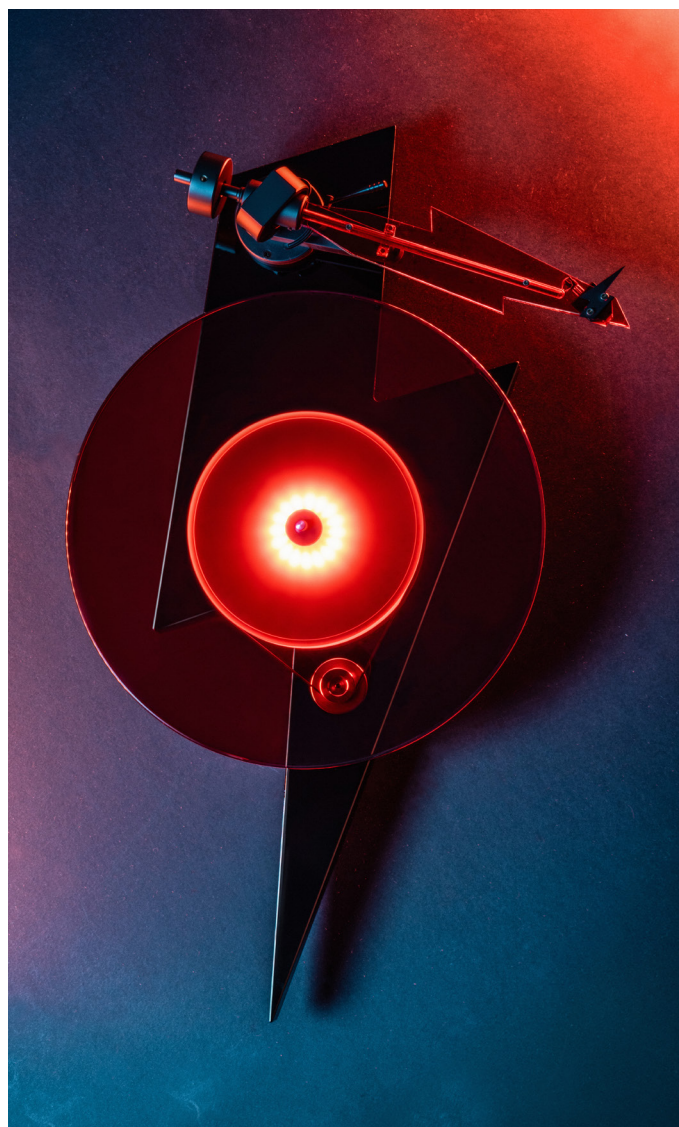

The new AC/DC turntable is engineered for audiophiles and music enthusiasts. The plinth is made of MDF which offers the perfect base.

The stainless steel axle of the precision acrylic sub platter sits in a bronze bushing. A design highlight is the red LED lighting of the sub platter. The flat silicon belt builds the connection to the AC motor, which ensures stable speeds.

The glass platter is a heavy, zero-resonance design. The high mass of the platter produces the tightest and most accurate playback speeds and at the same time allows you to see the stunning turntable and all of its high-quality parts and incredible build quality - avoiding the flaws of plastic or lightweight construction.

The low resonance tonearm is a complete new design and follows the design idea of the AC/DC logo. The pre-adjusted Ortofon 2M Red cartridge fits the whole concept and delivers you the perfect sound.

Handmade with care in Europe!

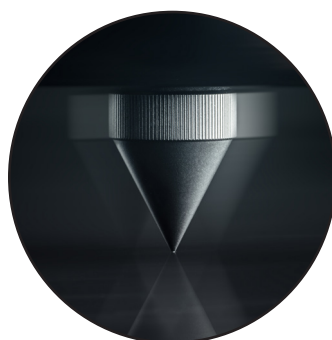

Solid Drive

Heavy glass platter & acrylic sub platter with LED lighting.

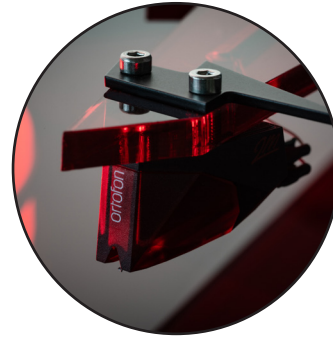

Special Tonearm

Unique 8,6-inch acrylic tonearm design with spring antiskating.

Spike Feet

Three height adjustable spike feet decouple the turntable.

Quality Cartridge

Premium pre-adjusted Ortofon 2M Red MM cartridge.
