QUICK SETUP GUIDE

PULSE M

bluesound.com

WELCOME TO #LIVINGHIFI

The PULSE M is a wireless streaming speaker that conveniently brings the enjoyment of hi-resolution music to everyday life. It can be used as a standalone music player to fill your space with sound, or grouped with other Bluesound players to create multi-room listening experiences. The PULSE M must be wired or connected wirelessly to your home network for full functionality.

This Quick Setup Guide will take you through the basic steps to get your PULSE M plugged in, connected to your network, and playing music.

Go to bluesound.com/downloads to download the App. The initial network setup is done using the BluOS App on your phone or tablet. Make sure you have the App downloaded and installed, and your phone or tablet nearby as you get started.

The PULSE M online owners manual has even more in-depth information, including troubleshooting tips and tricks. Please visit bluesound.com/products/pulse-m to download the latest version of the manual.

If you have any questions during setup please visit our support site at support.bluesound.com
