 <small>THE ORIGINAL ONLINE AUDIO MAGAZINE</small>	USA	I don't think it gets any better than <b>this</b> . From a price-performance perspective in this crowded, competitive field, <b>the M6x DAC stands out</b> .	 <small>soundstagenetwork.com</small>
	UK	The Musical Fidelity is <b>clearly a fuller-sounding performer</b> – it's <b>more about the heart</b> and less about the head in terms of the way it makes music. Spatially the M6x DAC puts the listener <b>more up close and personal</b> .	
 	UK	An <b>animated</b> yet <b>suave-sounding</b> performer that never gets to the point of being tonally harsh or excessively forensic. It's <b>grippy in the bass</b> , yet more obvious is the <b>fine sense of timing</b> . The music is delivered in a <b>controlled yet compelling</b> way.	
	Germany	Its <b>tonal balance</b> is <b>exceptional</b> and it <b>shines</b> with an <b>outstandingly stable, highly polished</b> and distinctly <b>spatial reproduction</b> . It allows music to <b>flow beautifully</b> .	 <b>1. PLATZ</b> <small>in der Kategorie                      D/A-Wandler                      Musical Fidelity M6x DAC</small>
 	Poland	The M6x-DAC brings an impression of <b>clarity, but also fluidity, smoothness, delicacy</b> . Sound - <b>juicy, present, close</b> . The <b>strong, natural midrange</b> does not become obtrusive, its <b>warmer timbre</b> prevents this.
