

M8s 500s

Magazine	Country	Review Quote	Conclusion
	Germany	<p>A high-performance power amplifier on one hand. On the other, a sensitive soul in terms of music playback. The M8s-500s impresses with enormous speed and playfulness. Soundquality: price/performance ratio very good.</p>	
	Germany	<p>Offers so much power that it seems outlandish to ever need more. It sounds very cultured. Bass is always controlled and clean. A clear case of power that does not show up in the form of strong-arm tactics.</p>	
 	United Kingdom	<p>Musical Fidelity are on to a winning formula with the M8sPre and M8s500s. Its no-nonsense exterior belies a very capable amplifier under the skin with the clarity, grip, and, control to challenge many a more expensive amplifier in fancier clothing. WATCH THE VIDEO</p>	
 	Poland	<p>This sound has „something“, sometimes even magnetizing. The M8 combo sounded more direct, dynamic, free and clean. A mature, stable and versatile sound with a unique satuveibility that gives music not only a seriousness, but primarily naturalness.</p>
