

NU-VISTA SERIES

Nu-Vista PRE

Magazine	Country	Review Quote	Conclusion
	United Kingdom	By high-end standards it represents remarkable value for money , given its ability to reveal the subtleties of a recording, then deliver massive slam when required, all with total control and assured music-making.	
	Italy	I have rarely heard such a combination that pleased me so much with its sense of rhythm . You feel immersed in the musical message - that gives me goosebumps - unrivaled in this price range.	
	Germany	The Nu-Vistas made for a spectacular experience , the likes of which I have rarely experienced even with the tube amplifiers that often set the standard in this discipline . The pair had any speakers we hooked up to it, elegantly under control regardless of the monitoring volume.	
	United Kingdom	These heavyweight Nu-Vista amps deliver an impression of unburstable power and resolution , the sound imbued with great clarity, detail and confidence , even at very high basic playback levels.

Nu-Vista 800

Magazine	Country	Review Quote	Conclusion
	United Kingdom	This is a stupendously powerful integrated amplifier in a relatively compact chassis. Its behaviour is impeccable. It suffers nothing – lightshow aside – superfluous. It is capable of both delicacy and machismo. And 16 years from now, we'll remember it!	
	Germany	Massive power, lightning-clean measurement technology and a neutral, extremely agile sound that reveals unheard details from every vinyl record and music file. The best mix of musicality, beauty and power is found in this noble amp!	
	Germany	Considering a dream come true, the offer can be seen as a fair deal – and the Nu-Vista 800 is a dream!	
	Germany	It completely indulges itself into the musical flow – irresistible! An outstandingly sovereign performance – an incredibly good amplifier!	
	Germany	Definitely a new star in the amplifier sky. Unwavering, with incredibly high resolution, yet musical, entertaining, substantial, versatile. Great! The machine may stay.	
	Germany	As expected, the amp was relaxed and confident in every situation - most power amplifiers are not capable of that. The nearly 40 kg heavy amplifier is built for eternity - a wall of sound!	
	United States	The sound was 100% consistent from top to bottom.	

Nu-Vista CD

Magazine	Country	Review Quote	Conclusion
	United Kingdom	<p>I am dazzled by the Nu-Vista CD. It is not as warm-sounding as its ancestor, but the clean, clear portrayal, the openness and the attack are qualities to cherish. Yet here I am about to antagonise the purists: this unit also scores because of its perceived value. Stunning looks, bomb-proof build quality, that light show - why not have some fun? Sound Quality: 83%</p>	
	Germany	<p>The Musical Fidelity Nu-Vista CD impresses with its fast, low-noise processing of the inserted medium. In addition, it excels in delicate sound reproduction. Also, here the Nuvistor tubes form a very authentic sound. This CD player is fun!</p>	
	Germany	<p>Power and authority! The NU-Vista CD always chooses the path which leads to a more realistic world and brings you even closer to complete musical immersion. Whoever makes this investment will be able to settle the discussion about CD as a source forever.</p>	
	Germany	<p>The Musical Fidelity Nu-Vista CD totally impressed with its tonal performance . When it comes to openness, it is superior to the vast majority of opponents. Voices came out of the loudspeakers with heart and soul. That was very majestic. 20kg of pure sound amusement.</p>	
	Germany	<p>The finest mechanics meet a powerful DAC and exotic tubes in the output stage. It excels in unrivalled analysis. A sonic image so precise you can actually touch it. It created a goose bumps atmosphere, which was rarely encountered in our auditory space in such a pleasant way. value for money: very good!</p>	

Nu-Vista 600

Magazine	Country	Review Quote	Conclusion
AUDIO TEST <small>STEREO STREAMING HIGH END</small>	Germany	The Nu-Vista 600 delivers everything you'd expect as a hi-fi enthusiast from a high-quality stereo amp. The Nuvistor tubes give the device a warm round sound without sacrificing precision and sonic emancipation. This amplifier also sounds, thanks to the Nu-Vistors, wonderfully sonorous!	AUDIO TEST 4.2017 Referenzklasse (96%) Musical Fidelity Nu-Vista 600
fairaudio <small>klare worte. guter ton.</small>	Germany	The resolution of this amplifier is striking, smallest details and sound textures are carved out – even for double the price you rarely get better performance. That's high-class. Everything the Nu-Vista 600 does is light handed, with ease – it never seems like work. And that contributes incredibly to music.	
STEREOD	Germany	With the Nu-Vista 600 we enjoyed a lesson in musicality, Musical Fidelity showed us how emotionally intoxicating music playback can be. Superior to all requirements, at the same time highly musical and packed with emotion.	STEREOD-TEST KLANG-NIVEAU 94% PREIS/LEISTUNG ★★★★☆ EXZELLENT
stereoplay	Germany	A rare combination of looks, enormously high resolution without any sharpness – highly dynamic and vibrant. The beauty and warmth of the Nuvistors paired with the precision and the calm of superior performance.	
HIGH & Style <small>dotknite sa kvalitou</small>	Slovakia	A very good choice even for demanding customers. Very fine highs and mids combined with a very dynamic bass are a very good choice even for a demanding audience.	

Nu-Vista Vinyl

Magazine	Country	Review Quote	Conclusion
Hi-FiChoice	UK	Mighty – Overall, this is an excellent phono stage for the money and treads a path between high-end sound, versatility and user convenience.	
fairaudio <small>klare worte. guter ton.</small>	Germany	It plays music much more detailed and rhythmically precisely. That way it is easier to feel like in a slightly filthy indie club – while other phono preamplifiers let you uprightly sit in front of your stereo system. But everyone wants to be carried away! Well – that's what the NuVista does!	
hifi & records <small>Das Magazin für hochwertige Musikwiedergabe</small>	Germany	It belongs to the analogue special class without fuss or quibble! A strong recommendation.	
image hifi	Germany	It shines with its absolute calmness and authority as well as with uncompromising dynamics. It improves intelligibility on all lead lines and places percussive bass accents with incredible certainty. Everything sounds authentic and organic at the same time.	
lp	Germany	Unobtrusive diligence and the feeling of coming home. Without boasting, it provides enormous qualities in all fields , such as immense depth in bass response; dynamic dauntlessness or precision in all frequency ranges both in terms of tone as well as in resolution.
