

MaiA S3

"The surprise of the summer"

- At its best moments, this amp **caught our mouths agape**.
- **Incredible** how the MaiA S3 **drives the speakers**. It had **enormous punch** and, at the same time, the perfect knack for **nuanced dynamic shifts**.
- And see here: the MaiA S3 was also **able to drive this heavy monster**.
- You have to see **this tiny amp drives human-sized loudspeakers** as if it were a mere finger exercise.
- There was both **drive and enthusiasm**. Everything aims at **speed and power**.
- This amp isn't a pussycat but rather **a tiger**. In addition, **accuracy** we're used to from much larger and more expensive amps.
