Mr. Michael Borzenkov is one of the biggest by the audience Hi-Fi and High End bloggers in the world and became a **national EISA expert** recently. He is a former **“What Hi-Fi? Russia”** and **“Stereo & Video” editor-in-chief** that now runs his own independent YouTube channel with non-traditional and very expressive Hi-Fi reviews.

Here are just a few quotes from 14 minutes length video:

High-End на ладони: стример Pro-Ject Stream Box S2 Ultra и ЦАП/предусилитель Pre Box S2 Digital
22,331 views · Dec 1, 2019

«With its small size and quite modest cost Pro-Ject Stream Box S2 Ultra has more features than 90 percent of devices in this class. It supports all the audio formats, including High Resolution, plays music from network sources or USB-drives. Stream Box S2 Ultra can work as a Roon or Tidal client, there is support for MQA, Bluetooth, Wi-Fi and everything settled in such a miniature device»...

«The Stream Box S2 Ultra I used with the DAC/preamp/headphone amplifier of the PreBox S2 Digital, which is an exceptionally lucrative acquisition»...

«After running the settings through the proprietary application Stream Box S2 Ultra, I got a very high-quality sound, which was even hard to believe. It is practically High End, but for quite reasonable money. This device received the EISA award, and I think it is absolutely deserved. Stream Box S2 Ultra fully justifies its cost, and its small size is an additional advantage for many users»...

Conclusion: “Must have for those, who understands the benefits and has a system that will unleash Stream Box S2 Ultra potential”.
