

# The Classic Evo

„It does what it says on the tin.”

Sound Quality: 85%

## Verdict

It isn't a forensic retriever of detail, nor is it an ultra-grippy, taut and tight renderer of bass. Instead, it's aimed at mainstream buyers wanting **something that sounds smooth, spacious and enjoyable** – and in this it clearly succeeds. Factor in the fine build quality, ease of set-up and excellent bundled cartridge option, and it's **an impressive package**.

The Evo version of the Classic features a heavier sub-platter, machined from the same grade of aluminium alloy as the main platter. Speed control – 33.33/45/78rpm – is electronic
