

S4-LCR65W 2-way in-wall

Dynaudio Custom Install

In-wall and in-ceiling installations:
authentic Dynaudio speakers, engineered to entertain

Dynaudio Custom LCR is designed to sound every bit as great as our legendary hi-fi, automotive and pro-studio speakers... and it's tailored just for you. Intelligent modular design means incredible flexibility: the speakers fit around studs (so you don't have to cut), you can place them either way up (so the listener gets total focus), and you don't even need tools to install them in the wall (so you can spend more time listening).

Like the rest of the Dynaudio Custom range, all the modules fit into their frames without any tools required. And each module uses a passive crossover with a three-position switch, pre-configured to standard LCR channel configurations that use one or two connected woofer modules. There's also a bypass position to enable an unlimited number of fully active and completely customised S4-LCR65 system setups with external DSP processing and a dedicated amplifier channel for every driver.

SPECIFICATIONS

Type	Twin-driver in-wall bass module
Drivers	2x 165mm (6½in)
Performance frequency response (+/- 3dB)	35-300kHz
Impedance (nominal/minimum)	4Ω / 3.2Ω
Sensitivity (dB SPL [2.83V/1m])	86±3dB (40-250Hz)
Rated power*	50W
Long term power*	200W
Tweeter level options	N/A
Dimensions/Depth	395 x 213mm, 90mm, 15 ¹ / ₅ x 8 ³ / ₈ in, 3 ¹ / ₂ in
Cut-out dimensions	190 x 373mm, 7 ¹ / ₂ x 14 ¹¹ / ₁₆ in
Grille material	Painted steel
Grille options**	Square/rectangular
Grille attachment	Magnetic
Grille finish	White (paintable)
Certifications	CE
Environmental	RoHS

* Power handling according to IEC268. Rated power is continuous power for 100 hours.

** Both optional.
