Gain: 25dB
Phono MM input: 1 x RCA with grounding screw
Line level inputs: 1 x RCA, 1x 3,5mm jack
Sub output: 1x RCA
Bluetooth: 5.0, aptX, aptX HD, A2DP profile
Speakers output: 4mm banana plugs, spades connectors or naked wire
Power supply: 20V/3A DC 100 - 240V, 50/60Hz
Power consumption in standby: <0.5W
Dimensions W x H x D: 206 x 51 x 115 (186)mm
Weight: 2kg without power supply

HiFi Stereo has never been this affordable

The Stereo Box E is the **all-in-one solution for your HiFi system**. The circuitry is **purpose-designed for correct and proper HiFi stereo** enjoyment. Where **other modern affordable amplifiers** often prioritize **features over quality**, the **Stereo Box E** ensures there are **no corners cut** to maintain a level of **audio quality** that is **usually seen in much more expensive amplifiers**.

High quality amplifier

The Stereo Box E boasts a **fully analogue preamp**, ensuring **no detail is lost** from input to output. The **low noise power amplifier** provides you **musical sound with lifelike characteristics**.

Upgradability and Compatibility

The Stereo Box E provides the base for a great HiFi stereo setup. Due to our modular product ranges you are able to combine these also between different lines which allows you to easily upgrade and expand your HiFi setup.

The setup shown right consists of the Stereo Box E, the CD Box E and our Tuner Box S3 DAB+ which adds FM, DAB+ and internet radio capability.

The Stereo Box E is additionally available in **carefully matched and selected sets**, to make your entry into true hi-fi stereo as easy and quick as possible.

Ready for any input type

With its **7 inputs** you are ready for **any kind of source device**. It offers a phono **RCA input for MM, MI or high output MC cartridges** as well as **two line inputs** for e.g. the CD Box E. You can also connect **digital sources** like your **TV or a CD** transport via the **coax or optical S/PDIF inputs** and use the **excellent Stereo Box E high-resolution DAC**. If you want to stream your music from your mobile phone, tablet or pc you can simply connect to the high definition **AptX HD capable Bluetooth 5.0** input. The **USB-C output** on the back distributes **clean power** to many **modern streamers**, meaning you will **not need a separate power supply** for them.

Enjoy music privately

Use your **headphones** to enjoy your favourite songs on your own. Connect them with the 6,3 mm jack connector and the Stereo Box E automatically switches the output to your headphones.

Heavy duty steel case

Our new Stereo Box E is available with a **beautiful black or silver brushed aluminium frontpanel** with **full aluminium buttons**. The **heavy duty steel case** protects sensitive amp electronics against outside interference.
