# T1 White Edition

## Audiophile Entry Level Turntable

MSRP 549 € (incl. VAT)

- Belt-driven
- Anti-resonant sub-platter design
- Heavy 1,3 kg steel platter
- Precision CNC'd heavy full chassis
- Pick it 2M White moving magnet pickup
- 8,6" highly precise and light aluminium tonearm
- Low friction, vibration free tonearm bearing
- One-piece tonearm with integrated headshell
- Semi-symmetrical low-capacitance phono cable incl.
- Vibration absorbing feet
- Elegant dustcover with adjustable hinges
- Hand-made in Europe

**Speed:** 33,45 (manual speed change)

**Principle:** Belt drive

**Speed variance:** 33: 0.7% 45: 0.6%

**Wow & Flutter:** 33: 0.25% 45: 0.23%

**Platter:** Heavy 1,3 kg steel platter with felt mat

**Main bearing:** Stainless steel/brass

**Signal to noise:** 65dB

**Tonearm:** 8.6" aluminium

**Effective arm length:** 218.5 mm

**Overhang:** 22.0 mm

**Effective tonearm mass:** 8.0 g

**Counterweight for mass:** 5 - 10g (pre-mounted)

**Tracking force range:** 0 - 50mN (17.5 mN pre-adjusted)

**Included accessories:** dustcover, feltmat

**Built-in Power Supply:** 230V 50Hz (US: 110V 60Hz)

**Power consumption:** 3 Watt max

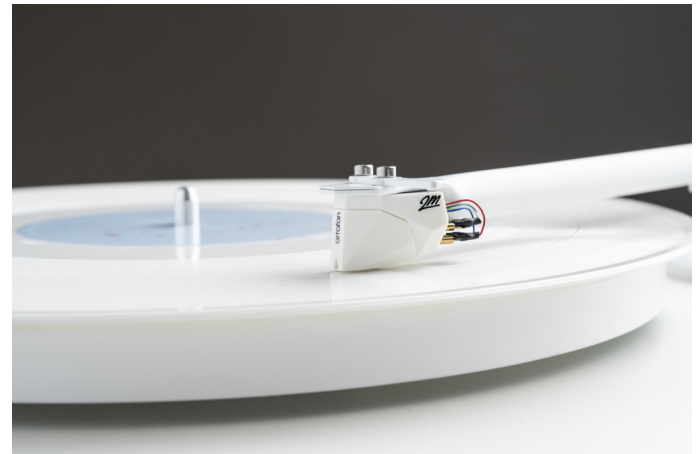

**Dimensions:** 415x100x335 mm (WxHxD)

**Weight:** 3.8 kg net

## T1: Affordable Audiophile Design

The T1 delivers true high-fidelity sound on a limited budget. This special edition T1 White Edition features a stylish CNC-machined plinth in Satin White finish. It is carefully manufactured to ensure there are no hollow spaces inside, therefore avoiding unwanted vibrations within the chassis.

The T1 is a new affordable marvel. Still made in Europe by a turntable factory with decades of experience, it is a true hi-fi turntable that looks and sounds sublime.

## The drive system

In the T1, the motor drives a belt-system, attached to a sub-platter, which is mounted into an ultra-precise 0.001 mm main bearing with a hardened steel axle and brass bushing.

Alongside the chosen motor system, the T1 is therefore able to ensure a smooth, anti-resonant rotational platform for the tonearm and cartridge to ride across.

## Premium Tonearm & Cartridge

The tonearm of the T1 based on previous Pro-Ject designs. With its straight, 8.6" effective length and stiff aluminium construction, this one-piece tonearm also features low-friction bearings for absolute accuracy in use.

Besides the clean and stylish looks, the integrated headshell won't cause any additional vibrations either, and is a big improvement over other detachable, screwed-on or glued-on headshells!

The all-white finish gives the tonearm a very special look.

Supplied with a Pick it 2M White Moving Magnet cartridge, featuring an elliptical diamond stylus tip; this is a true hi-fi playback system with no corners cut.

The T1 is then finished with super shielded, semi-symmetrical, low-capacitance phono cables, purpose-designed by Pro-Ject – not off-the-shelf RCA cables. There is also a dust cover included for extra protection and a felt mat to protect your records.
